

TECHNICAL DATA SHEET

Eurovent **CLIP C**

Clip for cut roof tiles, consisting of a stainless steel metal holder and steel wire. Suitable for use with many models of interlocking roof tiles, ensuring quick and easy installation. Effectively secures roof tiles against wind uplift. Resistant to weather conditions.

PARAMETER	UNIT	VALUE
Material		Stainless steel
Dimensions	[mm x mm x mm]	20 x 30 x 400
Metal sheet thickness	[mm]	1
Wire diameter	[mm]	1
Mechanical strength under perpendicular load	[kN]	0.15
Zinc coating resistance to neutral salt spray	[h]	96
UV resistance		Resistant
Colour		Silver
Carton	[pcs]	25
Pallet	[cartons/pcs]	800 / 20,000

TECHNICAL DATA SHEET

Eurovent **CLIP C**

Application: Used for securing cut roof tiles in roof valleys and hips. Protects roof tiles against wind uplift. The metal holder is attached to the edge of the cut tile, while the steel wire is fixed to a nail in the roof structure, most commonly in the roof batten. Suitable for the installation of both concrete and clay roof tiles.

Safety instructions: The product is not intended for consumption. Avoid contact with eyes. In the event of skin irritation, consult a doctor.

Storage / transport: The product should be stored in dry, covered areas, protected from moisture and UV radiation, in its original, undamaged and closed packaging. Stacking of the product is not recommended, except for pallets secured with a cage. The product should be stored away from heat sources and open flames, in accordance with applicable regulations and good fire-safety practice. The product should be stored at a temperature of at least +5°C. The product should be transported in covered means of transport. It should be prepared for transport in a manner that protects it against damage and destruction. Applicable transport safety regulations must be observed during transportation. The product must be protected against chemical agents, particularly solvent-based substances, as they may reduce its technical performance or permanently damage the product.

The product is covered by warranty provided that the guidelines contained in this Technical Data Sheet are strictly followed. The manufacturer reserves the right to reject a warranty claim if the specified guidelines have not been observed.

The information, recommendations and guidelines contained herein are provided based on our best knowledge, research, experience and in good faith. We accept no responsibility for the consequences of improper or incorrect use of our products. Each user of this material is responsible for verifying, by all available means, including testing the final product under appropriate conditions, that the supplied materials are suitable for the intended purpose.
